

INDUSTRY SOLUTIONS

Solutions to specific client problems and/or management system needs can be customized by CARCO Group to meet the requirements of different industries and clients.

For more than 25 years CARCO has led the way in providing inspection services for the insurance industry and risk mitigation services for the corporate world. Business clients, both large and small, in virtually all industry groups, look to CARCO's team of risk mitigation specialists, and the spectrum of services offered by the company.

In light of today's business challenges CARCO's ability to help its clients mitigate risks is due in large measure to the capabilities of its management and investigation teams, and the company's ability to apply technology to the needs of its clients.

CARCO provides a variety of essential risk mitigation services to the international marketplace, including financial and general investigative services, due-diligence services, security consulting, pre-employment and vendor screening, and more.

CARCO Group provides a variety of specialized Risk Management industry solutions and services for the following business/industry classifications:

- Consumer Products
- Energy
- Financial Services
- Healthcare
- Insurance
